

Evolution of homicides and accidents with firearms (2000-2014)¹

Types of Firearms Used in Fatal Incidents 2000-2014

Homicide firearm victims: 2000-2014

based on medical data¹²

Lethal Gun Violence by Gender

Mass Shootings since 2000²

Tours, October 2001³

Mass public shooting
Pump action .22 rifle
Arrested

Nanterre, March 2002⁴

Terrorism-related/homicide-suicide attack
Two Glock automatic handguns and Smith & Wesson .357 Magnum
Perpetrator also committed suicide the next day

Chevaline, September 2012⁵

Killing of a family and a passerby
Swiss-made Luger P06 7.65 mm semi-automatic pistol
Perpetrator unknown

Toulouse-Montauban, March 2012⁶

Terrorism-related attack
Uzi sub-machine gun, Colt .45 pistol
Perpetrator shot dead after police siege

Paris, January 2015⁷

Terrorism-related attacks
2 Zastava M70 AB2 assault rifles, 2 Zastava M57 pistols, 2 Vz.58 assault rifles, 2 Tokarev 33TT pistols
Perpetrators (3) shot dead by the police

Roye, August 2015⁸

Community attack
Semi-automatic Beretta calibre 12 hunting rifle
Perpetrator arrested

Paris, November 2015⁹

Terrorism/Homicide-suicide attack
3 Zastava M70 AB2 assault rifles, Serbian Zastava M70, Bulgarian AKS47, Chinese Norinco 56-1, Browning HP-35 pistol (9 mm)
Perpetrators (10) suicide, killed by police, arrested

Strasbourg, December 2018¹⁰

Terrorism-related/Homicide-suicide attack
Lebel 1892 revolver (8 mm)
Perpetrator shot dead by the police

² Literature offers no generally accepted definition of a "public mass shooting". For data collection purposes Sarah Watson's definition will be basis of categorisation for a mass shooting. However, the scope will be further widened to include multiple perpetrators, "shootings that occur in the public and/or semi-public space, perpetrated by one offender and resulting in three or more randomly selected victims, with at least one social consequences. Criminology & Criminal Justice" vol. 1 no. 19, pg. 4.

Trafficking

In France the main clients of arms trafficking are organized crime, and mainly drug traffickers.¹⁶ A major supply source of illicit arms is constituted by the theft of weapons, committed to the detriment of both individuals and gunsmiths.¹⁷

Internationally, the main smuggling channels are:

- the Balkans, where several depots of military and security equipment have been looted after the end of the Nineties' conflicts;
- Turkey, through which a significant number of blank-firing firearms reaches France, and is there reconverted to deadly weapons;
- North America, where US law allows for the purchase of all firearm's components, that are then shipped to France and there assembled.¹⁸

Possession

According to the French Ministry of Interior, in 2022 5 million people in France hold a legal gun, of which 4 million are estimated to be hunters with 1.2 million actively using their firearms.¹⁹

However, the Small Arms Survey has signaled how in 2017, against 4,501,235 registered firearms, 8,230,765 unregistered ones were nonetheless circulating in the country.²⁰

At the beginning of 2022, France has introduced a new firearms registration system named SIA (système d'information sur les armes). SIA is designed to simplify regulations and improve checks on weapons by interconnecting information provided by the Ministry of the Interior, police prefectures, arms manufacturers, sales outlets and gun owners.²¹

Based on official data provided by the French National Police, in 2023 there were reported 5,223,658 legally possessed weapons, out of which 4,308,725 were Category C firearm type, 914,059 Category B and 874 Category A.²²⁻²³
